Requirement Scope Area	Description
Hair Stylist Booking Web Application	The Hair Stylist Booking Web Application is an online platform that allows clients to easily schedule, reschedule, or cancel appointments while receiving automated confirmations and reminders. It provides an admin dashboard for the hairstylist to manage bookings, customer records, and testimonials, while also supporting a portfolio section to showcase completed work. Branding elements and, optionally, a blog feature are included to strengthen the hairstylist's digital presence and improve customer engagement.

External Entity	Description
Customer(Client)	Books appointments, views portfolio, submits feedback/testimonials.
Hairstylist/Admin	Manages booking confirmations, reminders and updates.
Email Service	Sends booking confirmations, reminders and updates.

Information Flows	Description
Customer --> System	Appointment requests, feedback/testimonials and account details.
System --> Customer	Confirmation emails, reminders, blog posts and portfolio display.
Admin --> System	Approves/reschedules booking, manages testimonials/portfolio and updates branding

2. Requirements Scope Statements

HLR#	Description	Priority (H, M, L)
HLR01	Online Booking System: A web interface that display only available time slots, allows clients to book/reschedule, and sends confirmation emails.	High
HLR02	Admin Dashboard: Allows hairstylist to manage booking, view schedules, track client history, and handle cancellations/modifications.	High
HLR03	Customer Profile System: Enables clients to create accounts, view past appointments, and sabe preferences.	Medium
HLR04	Branding & Visual Identity: A consistent brand package (logo, color palette, design elements) integrated into the website.	Medium
HLR05	Portfolio & Testimonials: Gallery of photos of hairstyles + client feedback form, with admin approval and consent capture.	Medium
HLR06	Blog Module: Optional feature allowing hairstylist to publish style tips, updates, and announcements (basic SEO support).	Low

3. High Level Business Requirements Sign-Off

The undersigned acknowledge their agreement with the contents of Version <x.x> of the High-Level Requirements document for <Project Name>.

Following approval of this document, requirements changes will be governed by the project's change management process, including impact analysis and appropriate reviews and approvals, under the general control of the Project Plan and according to company policy. Approved Change Request Documents, if present, will be attached to this Requirements Document as updates.
